Software made for your business.

Hi, I'm Christian. I build websites and systems for businesses. You tell me what you need, and I make it: the pages your customers use, the tools your staff use, and a dashboard for the owner. I also host it and help you after it goes live.

I have built booking websites, POS systems, and attendance and payroll systems. Real businesses use them every day. For every new project, I first learn how your business works. Then I build exactly what you need.

businesses using my systems	types of systems built	developer for the whole project	open on any phone or computer

WHAT I CAN BUILD FOR YOU — MADE FOR YOUR NEEDS

For your customers

Websites where customers can book, sign up, order and pay online by themselves.

Live now: 16 court booking websites with GCash and Maya payments.

For your staff

Tools that replace notebooks and Excel: POS, stock, attendance, payroll and expenses.

Live now: a POS with stock tracking, and attendance and payroll with PIN and photo.

Anything else

Dashboards, reports, or a completely new system. If it works in a web browser, I can build it.

I build it around how you work, not from a template.

02 · WHAT YOU GET

Everything you need, in one system.

Your customers, your staff and you each get the screens you need.

Pages for your customers

A website with your logo, colors and own web address. Easy to use on a phone.

Always up to date

Bookings, stock, sales and attendance update right away for everyone. No double bookings.

Online payments

Customers pay to your own GCash, Maya or bank account. Staff check the receipt and approve it in one tap.

Reports

See sales, bookings and attendance by day or month. Every record and receipt is saved.

Owner and staff logins

Each person has their own login. You choose what each person can see and do.

Works like an app

Add it to the phone's home screen. No app store needed. Updates reach everyone right away.

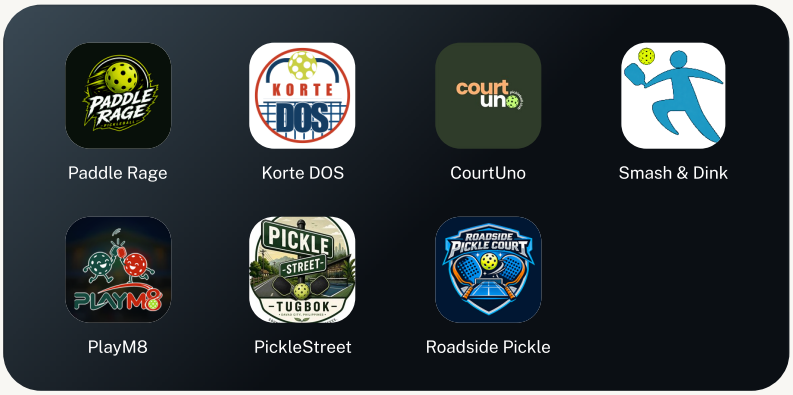

ALSO INCLUDED

- Your own domain name
- Works on any phone
- Works offline if needed
- Owner, manager and staff logins
- Private receipt storage
- Security checks
- Email and phone alerts
- List of every update
- Staff training
- Ongoing support

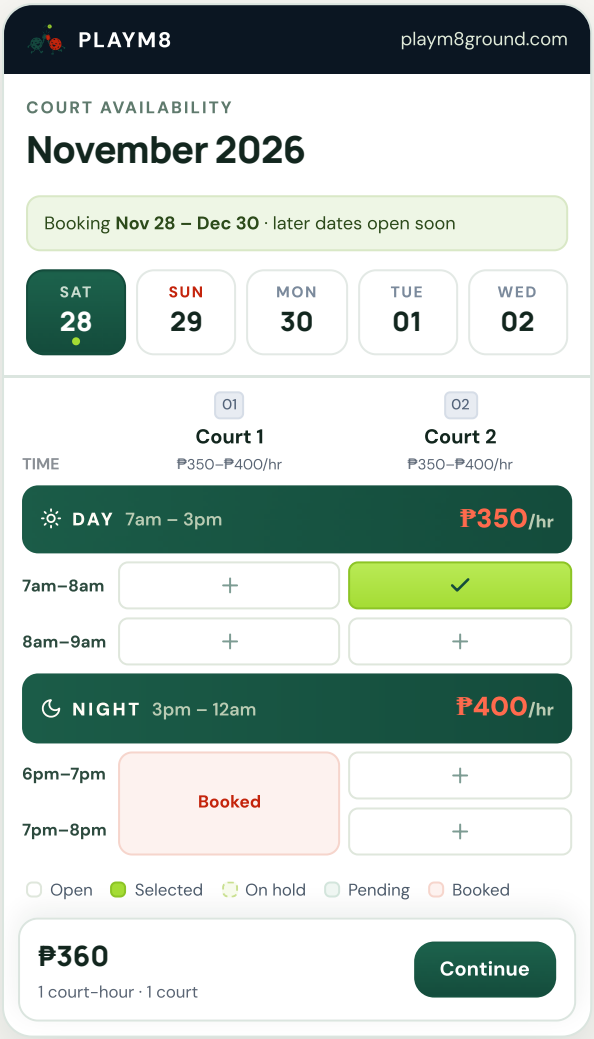

REAL APPS ON A PHONE

On the home screen, like an app

Customers, staff and owners can add the system to their phone's home screen. It opens like a normal app. These are real client apps.

PlayM8: book a court and pay online.

PlayM8's booking page, redrawn from the real site. No real player data.

PlayM8

playm8ground.com · Iponan, Cagayan de Oro

PlayM8 is an indoor pickleball venue. Players open the website, see which courts are free, pick a time and pay online. They don't need to message the venue.

For players

- Welcome screen with call, Facebook, club and map buttons
- Schedule by date and court, with day and night prices
- Book many slots and courts at once
- Slots are held for 25 minutes while the player pays
- Pay with GCash, Maya or GoTyme, then upload the receipt
- "My reservations" page to find a booking later

For the owner

- GCash receipts are checked automatically
- Reports, alerts and an admin page that works on a phone
- Change bookings, block slots, and restore deleted items
- Works like an app on the owner's and staff's phones

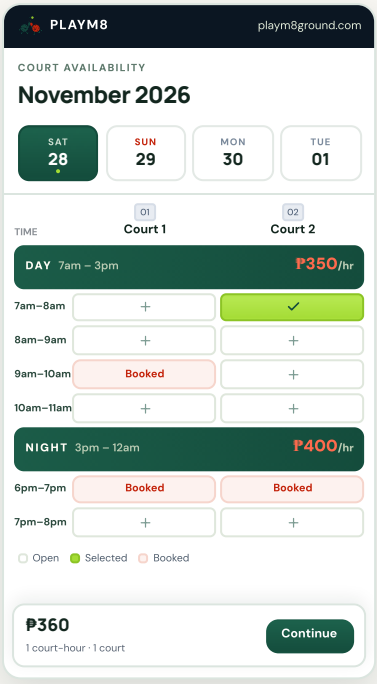

2
indoor courts

₱350 / ₱400
day and night price per hour

3
ways to pay: GCash, Maya, GoTyme

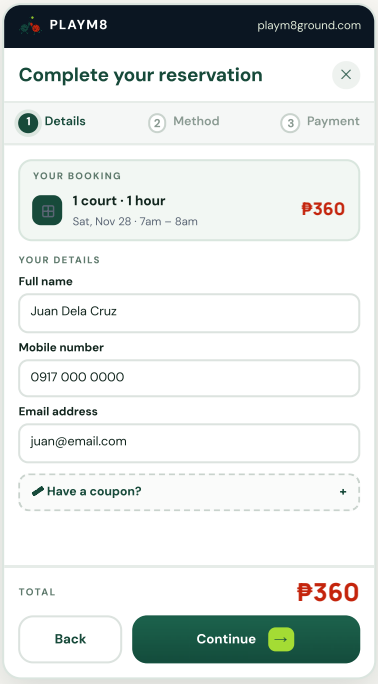

Own website
playm8ground.com

Booking a court in 6 easy steps.

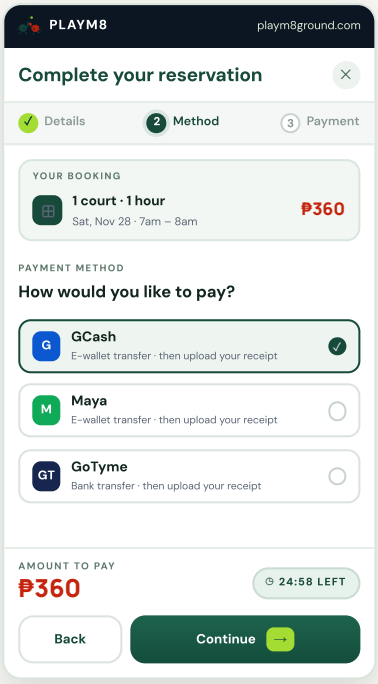

1 Pick a time

Tap a free slot, then tap Continue.

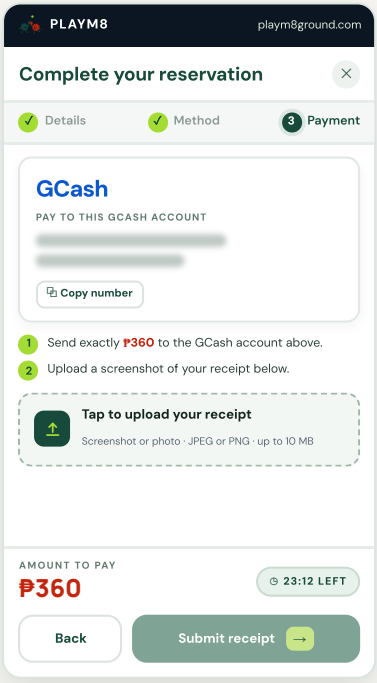

2 Enter your details

Name, mobile number and email. No sign-up needed.

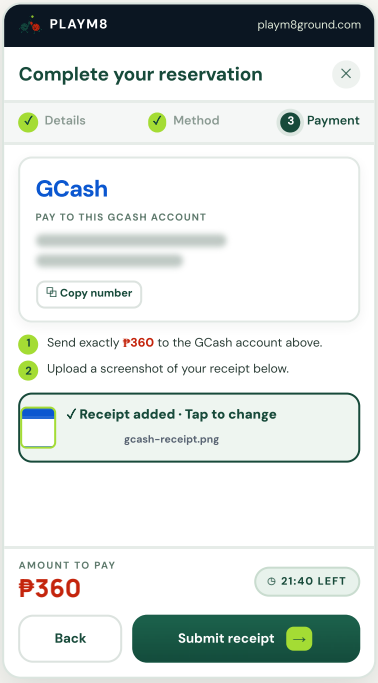

3 Choose how to pay

Pick GCash, Maya or GoTyme.

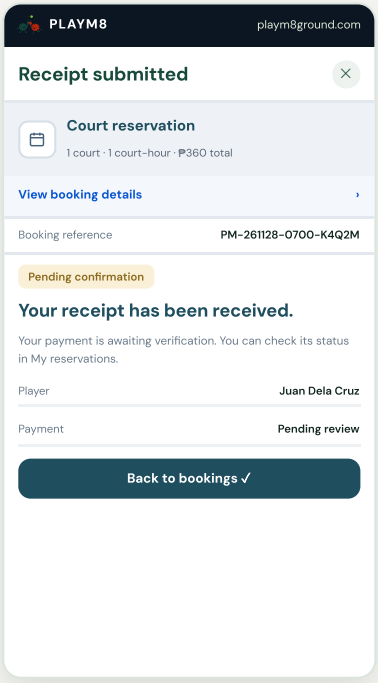

4 Send the payment

Send the exact amount. The slot is held for 25 minutes.

5 Upload the receipt

Add a screenshot of the payment, then tap Submit.

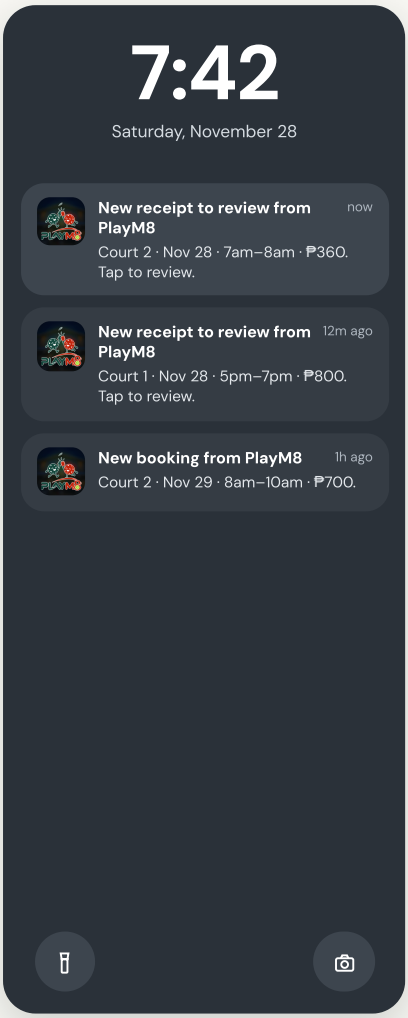

6 Get confirmed

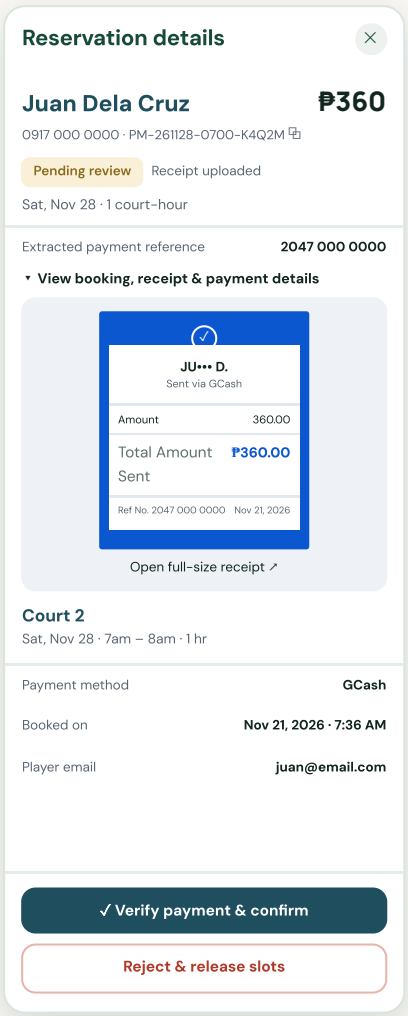

The venue checks the receipt and sends an email.

Screens redrawn from the real PlayM8 website with a sample booking. Payment details are hidden.

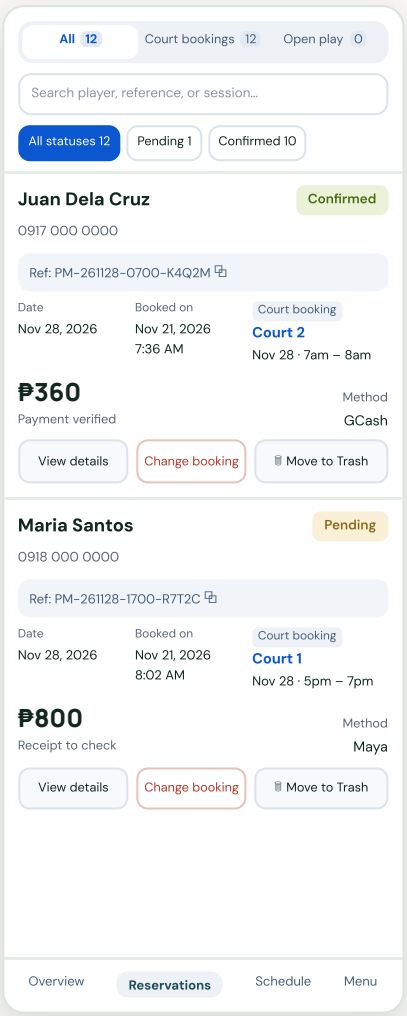

The owner checks the receipt and confirms in one tap.

1 **Get an alert**
The owner's phone gets an alert when a player sends a receipt.

2 **Check and confirm**
Look at the receipt. If it is correct, tap confirm. If not, reject it and the slot opens again.

3 **See all bookings**
Every booking shows its status and payment. You can change or delete it anytime.

OWNER AND STAFF TOOLS

Manage bookings from your phone

- Alerts for new bookings and receipts
- GCash receipts are read automatically
- Confirm, reject or move any booking
- Search by name, reference or date

Owner screens redrawn with sample data. No real customer details.

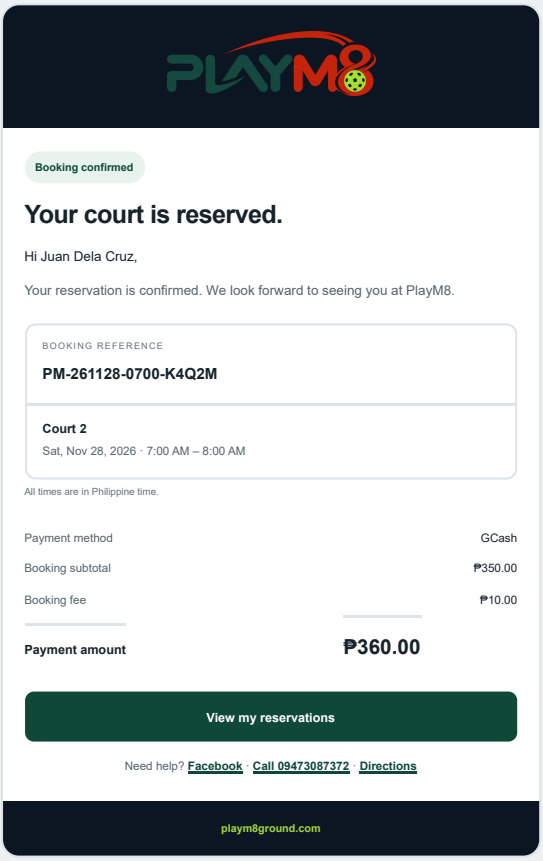

The player gets an email right away.

The email comes from the venue's own address, with its logo and colors.

WHAT EACH SITE INCLUDES

Own design, same strong system

Each venue has its own logo, photos, colors and web address. Every site has a live schedule, online payment, an admin page, contact and map buttons, and works like an app.

Not just booking: POS and payroll, made on request.

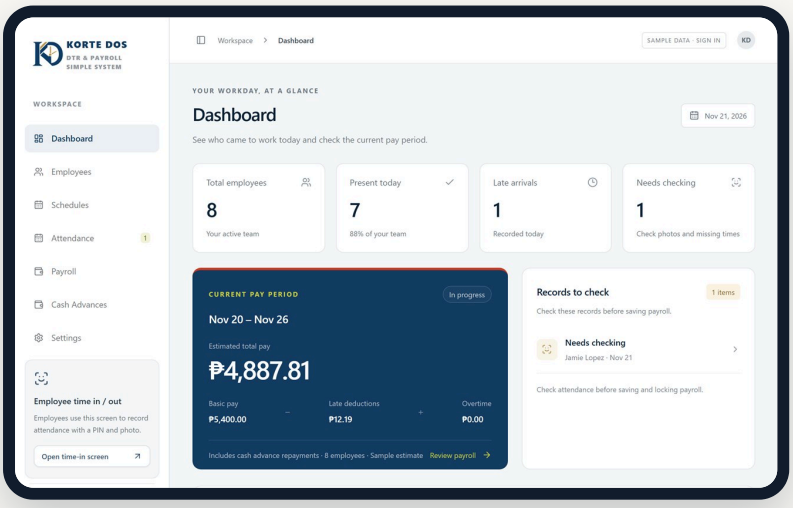

POS screen, redrawn with sample products.

POINT OF SALE

POS for drinks, snacks and rentals

Built for Paddle Rage, PlayM8 and Pickle Street

- Each staff member logs in with a PIN
- Cash and GCash sales (GCash needs a payment photo)
- Stock goes down by itself after each sale
- Still works without internet, then saves later
- End-of-day cash count shows if money is short or over
- Owner sees costs, daily profit and cancelled sales

DTR & payroll screen, shown with sample data.

DTR & PAYROLL

Attendance and payroll, no paperwork

Built for Korte Dos and Paddle Rage

- Staff time in and out on a tablet with a PIN and photo
- Late, undertime and overtime are computed automatically
- Weekly or custom pay periods
- Cash advances are tracked and deducted
- Print payslips or download to Excel (CSV)
- Owner approves the tablet from their phone

10 · HOW I WORK

How we work together.

01 Talk
We talk about your business and what you need.

02 Plan
I list the pages and features, then send you the price and timeline.

03 Build
I build the system with your logo and colors. You can see the progress.

04 Test
Your team tries it before launch, and I fix anything that needs fixing.

05 Launch
The system goes live, and I teach your team how to use it.

06 Support
I stay as your developer for fixes, changes and new features.

Trusted by real businesses in the Philippines.

Made for your needs
No forced templates. The system follows how you already work.

Used by 16 businesses
Real customers, payments and staff use my systems every day.

One developer, start to end
The person who builds it also supports it. You talk to me directly.

Works with local payments
GCash, Maya and bank transfer, paid straight to your own account.

You own everything
Your own payment accounts, web address and data.

Safe and secure
The system is tested on every update, and private files stay private.

Tell me what you need. I'll build it and keep it running.

NEXT STEP

Let's build your system.

Tell me what you need. I will send you a price and a timeline.

1 Share your idea 2 Get the price 3 Start building
